CS 4341/6341: Team Project - Part 2

By the time you read this, you will have received an email from me that tells you your assigned *team letter* such as "A", "B" etc. Please do not share this with anyone.

Next, examine the third column in the table below. Your team letter will be assigned as "first reviewer" for one of the projects. For example, team "A" is the first reviewer for project #2.

Examine the fourth column. Every team (through its letter) has been assigned as "second reviewer" for a project. For example, project #2 has been assigned team "G" as the second reviewer.

So, for your team, use your letter to perform your two reviewing tasks (once from the 3rd column, and once from the 4th column.

As a team, you should complete each of your two reviews as follows:

- When you download the zip-file for the project, you will see two folders: one that describes the project and has a demo, and the other with the exercise.
- Read through the main idea, and work your way through the demo.
- Then complete the exercise.
- Finally, fill out **this review form** (Word format) and save as PDF.
- We'll use the following naming convention, using Project 2 below as an example:
    - Team A's review form will be called `TeamA-project2-review.pdf`
    - Team G's review form will be called `TeamG-project2-review.pdf`

  At least one person your team should upload your PDF reviews to Blackboard (look under team project, then the two uploads).

Note:

- Make sure your review does not reveal your identity.
- If the demo does not work, or a project is not submitted by 5pm Monday 4/29, rate accordingly.
- In class on May 3, you will need to show the extent to which you completed the exercise. Thus, bring your code (on one of your laptops) showing completion of the exercise.
